FSD'S TECH NEWSLETTER

MANITOBA EDUTUBE

Last week Frontier participated in another MET content creation session with Pembina Trails School Division. This time however, the bar was noticeably raised! The content that Darla Oszurkiewicz (Duke of Marlborough) and Brian Hutton (FCI) produced, both the quantity and the quality, was outstanding. Their efforts established Frontier as the top contributor during the session, which will be used to demonstrate the project to the Minister and Deputy Minister of Education, later this week. I invite you to visit the site and view the project for yourself. <http://portal.met.pembinatrails.ca> Click on the "Guest" button to enter and view the content.

Please join me in saluting these two teachers and their Principals for having the vision and commitment to help make Frontier a true innovator in K-12 Education.

Thank you and well done!

CONNECT FSDNET

Ron Matthes has created an excellent resource for all to use. It's a Frontier Forum to ask questions, share ideas

PEER COACHING

We just hosted another Peer Coaching Session in the Division Office and it was a huge success! Shelee King George from the Puget Sound Centre for Teaching, Learning and Technology led 12 FSD teachers and consultants, as well as one guest teacher from Saskatchewan, through the amazing concepts and tools for Peer Coaching. Most of the participants are already moving ahead with their new found knowledge!

and explore the various Frontier works being discussed. The site is found here: <http://connect.fsdnet.ca> and can also be located in the Quick Links box on the Frontier website.

Creating a user account for this resource is free and easy, but it does require you to have and use your Frontier e-mail account and full name.

Ron has also created a demonstrational video for users. It can be found at <http://a2.fsdnet.ca/connect.html>.
